Elective-IV (4201): Your Specialization's Final Theory Course

Course 4201 has no syllabus of its own in the term list — the syllabus book sends you to the Specialization sections at the end of the book. This guide explains the slot, names the course that fills it in each of the four tracks, and shows where its lecture sheets live in Texora.

4201 · ELECTIVE-IV · GUIDE · LEVEL 4 TERM 2

1. The course in brief

In the Level 4 Term 2 course list, **4201** is printed without a departmental prefix because it is not one course but a **slot**: the fourth elective of the degree. The syllabus book prints the slot's frame and one instruction:

ITEM	AS PRINTED FOR 4201 ELECTIVE-IV
Class hours	45 total (3 per week)
Credit	3.0
Topic list in the term list	None — the book states: *details can be found in the specialization course's content sections at the bottom (end) of the syllabus*

By Level 4 Term 2 the slot no longer involves a choice: it is filled by the **specialization track** you entered at Elective-I (3207) and continued through Level 4 Term 1. Your 4201 is your own track's 4201 course, printed in the Specialization section at the end of the syllabus book.

2. The four tracks and their 4201 courses

TRACK	SPECIALIZATION	THE COURSE THAT FILLS SLOT 4201 (3.0 CREDITS, 45 HOURS)
YM	Yarn Manufacturing Engineering	**YM-4201 · Modern Yarn Manufacturing**
FM	Fabric Manufacturing Engineering	**FM-4201 · Advanced Knitting and Non-woven**

WP	Wet Processing Engineering	**WP-4201 · Textile Finishing**
AM	Apparel Manufacturing Engineering	**AM-4201 · Advanced Apparel Manufacturing-II**

Unlike the two same-titled 3207 machinery courses, the four 4201 titles are all distinct — but the identity rule is unchanged: the **track code**, not the title, defines your course, your syllabus and your examination.

> **WHERE ELECTIVE-IV SITS IN THE SPECIALIZATION**
>
> The specialization runs 3207 (Elective-I) → 4101, 4102, 4103 (Level 4 Term 1) → 4201, 4202, 4203 (this term). Elective-IV is the senior theory course of the track: it assumes the earlier track courses and feeds directly into your TE-4207 project work and TE-4209 internship, both of which are done in the field of your specialization. Treat this course as the theory base those two are examined against.

3. How it works

- **One track per student, throughout.** You are examined on your own track's 4201 course only; there is no cross-track paper for this slot.
- **Pairing with 4202.** Slot 4202 (Elective-IV Sessional) is the practical companion of this course in every track — theory here, laboratory and workshop practice there. Revise them together.
- **No new selection in this term.** The administrative choice was made at 3207. If anything about your track enrolment is unclear, settle it with the department office early in the term — that detail comes from the department, not from the syllabus book, and this guide does not guess it.

4. Finding your sheets in Texora

1. Open Texora and go to the **Specialization Courses** section of the Syllabus area.
2. Open your track's page — **Yarn Manufacturing**, **Fabric Manufacturing**, **Wet Processing** or **Apparel Manufacturing**.
3. On the track page, open the course coded **<track>-4201** — e.g. *WP-4201 Textile Finishing*. Its topic sheets are the lecture sheets for your 4201.

This guide sheet is filed under the bare code **4201** in the Level 4 Term 2 list, exactly as the syllabus book prints the slot. It deliberately contains no topic content of its own: the content lives, as the book directs, in the specialization sections — and in Texora, on the four track pages.

Glossary

Elective slot — a position in the term's course list whose actual course is set by the student's specialization track. **Specialization track** — one of the four final-year concentration paths (YM, FM, WP, AM). **Track code** — the two-letter prefix (YM/FM/WP/AM) on specialization course codes, e.g. FM-4201.

Key points

• 4201 Elective-IV: 45 class hours, 3.0 credits — a slot, not a single course; the book prints no topics for it and refers to the Specialization sections.
• Your 4201 is your track's course: YM-4201 Modern Yarn Manufacturing · FM-4201 Advanced Knitting and Non-woven · WP-4201 Textile Finishing · AM-4201 Advanced Apparel Manufacturing-II.
• It pairs with 4202 (its sessional) and underpins TE-4207 project work and TE-4209 internship in the same specialization.
• In Texora: Syllabus → Specialization Courses → your track page → the <track>-4201 course.

5. Practice (orientation questions)

Short questions to check you have the slot's structure right; brief answers follow.

1. A student says “I still need to choose my Elective-IV course this term.” Correct the statement.
2. You are in the Wet Processing track. Give your 4201 course code, its exact title and its credit.
3. Why is this guide filed under “4201” rather than under one track's code?

Answer key

1. The choice was made at Elective-I (3207) and continued through Level 4 Term 1; in Level 4 Term 2 the 4201 slot is filled automatically by the student's own track course. There is no fresh selection for Elective-IV — only enrolment confirmation with the department if anything is unclear.
2. **WP-4201 · Textile Finishing**, 3.0 credits (45 hours).
3. Because the slot itself belongs to no track — the guide explains the structure every student in the term shares, and it mirrors the syllabus book, where 4201 appears in the term list without a prefix. The track-specific content sits on the four track pages.
